

There is strength in **partnership.**

With **SONTIQ™** you can go about your business intelligently, knowing that the top brands — IdentityForce®, Cyberscout®, and EZShield® — are working for you.

AWARD-WINNING, BEST-IN-CLASS PRODUCTS & SERVICES

OUR STORY

We're serious about protecting the identities of our partners, clients, and members. Our name, Sontiq, is derived from the Latin word "sonticus" meaning serious or critical. Sontiq's intelligent identity security solutions focus on protecting every component of an identity in today's highly volatile digital world where security incidents, cyber threats, and data breaches are the norm. This ironclad protection is at the core of what Sontiq delivers.

As a company with two rich heritages from EZShield + IdentityForce, there's strength in partnership with Sontiq for those who believe that security and privacy of confidential information, both at the individual and business level, must be continuously protected.

By acquiring Cyberscout, Sontiq further builds upon its world-class product platform, expanding into the insurance industry with products and services around cyber solutions and forensic investigation services. Additionally, both Sontiq and Cyberscout have built strong, repeatable successes within the Employee Benefits sector, mutually focused on delivering competitive packages to help brokers and organizations protect employee populations from cyber threats and identity crimes. With Cyberscout, and Sontiq's IdentityForce and EZShield, an ever-growing community of institutions, households, and individuals benefit from best-in-class products and services that define the identity theft and cyber fraud protection market.

With IdentityForce, Cyberscout and EZShield, we have created the trifecta required for all those we serve to combat and recover from the increasing harm resulting from identity crimes and cyber threats. This is a powerful acquisition for Sontiq. By adding Cyberscout into our product portfolio we are further strengthening our financial services market position with insurance industry expertise.

—Brian J. Longe, President and CEO of Sontiq

DELIVERING INNOVATION WITH AWARD-WINNING SOLUTIONS

Sontiq delivers a sophisticated set of proactive services, all backed by our world-class Restoration Services, to ensure the entire digital footprint of today's enterprises and their employees, customers, and partners are protected from data breaches and security incidents.

- FINANCIAL INSTITUTIONS**
 A proven and trusted partner for banks, credit unions, and other financial services providers for building identity theft protection programs that are tailored for an organization's goals. Products include Identity Theft Protection, Check Fraud Protection, Mobile Defense Suite™, Business Suite, along with Breach RapidResponse and Breach Readiness programs.
- INSURANCE**
 Through Sontiq's comprehensive product portfolio, major insurance carriers, mutual insurers, and reinsurers benefit from increased cybersecurity education, protection, forensics, incident response and resolution services.
- EMPLOYEE BENEFITS**
 For any organization in any industry interested in offering identity protection as an employee benefit. Sold directly to employers and through employee benefit brokers. Flexible deployment platform and enrollment which can be delivered via employer paid, payroll deduct, or funded partially by the employer.
- COMMERCIAL**
 For organizations looking to build stronger client relationships, improve retention, and generate a new recurring revenue stream by offering fraud protection services including identity theft protection, mobile cybersecurity, breach solutions, and Check Fraud Protection. For organizations with Small and Medium-sized (SMBs) business clients, they can offer bundled services and solutions through the Business Suite.
- MOBILE SECURITY AND HIGH-TECH**
 For Information Security and IT teams looking to augment their Mobile App Management (MAM), Mobile Device Management (MDM), and general cybersecurity and fraud protection strategies, adoption of next-generation Mobile Threat Defense combined with identity theft protection is a solution that can be rolled out to internal employees and sold externally as part of value-added services.
- PUBLIC SECTOR**
 For federal, state and local government agencies, and educational institutions who require a flexible, low-cost solution for identity protection and breach response, packages can be customized to fit budget and security needs. Awarded GSA Tier One status as an approved supplier of credit monitoring, risk assessment and mitigation, breach analysis and response, and comprehensive protection solutions. Has held a U.S. General Services Administration (GSA) contract since 1995 and was originally awarded a Blanket Purchase Agreement (BPA) for credit monitoring services since 2006.
- CONSUMERS**
 For partners and affiliate marketing organizations seeking an identity theft protection solution to offer their online community, with an appealing cost per acquisition (CPA) and high-volume conversions. Additionally, acquisition strategies include search engine optimization (SEO) to drive organic acquisition growth and pay per click (PPC) programs geared to capture and convert search traffic based on popular keywords.
